

# Walleye in Deer Creek

, Aug 1986

By REX C. INFANGER  
Outdoors Writer

MILL MEADOW — Fishing is slow from the shore but a few fish are being caught with worms. Trolling is fair with 970 Triple Teasers rainbow color.

FREEMONT RIVER — Good fishing below Johnson's Valley Reservoir. Use a worm on a size eight hook and a single split shot up above. It's possible to catch Brooks, Cutts and Rainbows.

FISH LAKE — Shore fishing for Rainbows has been good along the east shore. Use Velveeta on a sliding sinker rig. Mac fishing has been fair with 18- and 20-pound fish taken last weekend. Trolling below 70 feet with pop gear and a minnow is working well.

SOLDIER CREEK — Soldier Springs Bay has been very good from the boat. Go up the bay from the boat ramp and anchor in 30 feet of water, fish Velveeta on the bottom.

DEER CREEK — Trout fishing is good. Troll along the west shore across and down from the island with an orange frog pattern Carter Spoon. Some Walleyes are being picked up around the island late in

the evening on size five gold and black Rapalas.

UTAH LAKE — Catfish fishing has been good near Bird Island. Use shrimp on a number two hook and just enough weight to keep it on the bottom.

CURRENT CREEK — Fishing has been good from the boats with cheese or trolling a pink 970 Triple Teaser. Shore fishing is fair down by the dam with a cheese marshmallow worm combination on a sliding sinker rig.

PROVO RIVER — Bait fishing has been fair below Canyon Glen. Use Balls of Fire on a size 16 treble and just enough weight to let it bounce along the bottom. Fish the holes behind the rocks along the long runs.

LAKE POWELL — Late evening fishing has been good for Stripers. Watch for the shad boils and cast into the center of them with a grey fish pattern Zara Spook.

GENERAL — There are Walleyes in Deer Creek. The Division of Wildlife Resources got a 12e pounder in their net last fall. Also, watch for the upcoming meetings from DWR on the Strawberry Reservoir Treatment Program.
